Vallejo is committed to being a healthy community. In 2017, the city council adopted a resolution advocating and supporting the Healthy Eating and Active Living (HEAL) Cities Campaign, joining a growing group of California communities choosing to address the relationship of the built environment and related matters to community health; and identified the General Plan as a primary vehicle to promote the well-being of all Vallejoans.

Health issues in Vallejo center on heart disease, cancer, stroke, asthma, mental health, and substance abuse. Unintentional injury (including motor vehicle collisions and pedestrian injuries) and crime present other health concerns. For many of these causes, there are disparities based on location within Vallejo and associated social factors, especially income. In several pockets of the city, about one out of four residents survives below the federal poverty line. Residents in these neighborhoods are also more likely to be disabled and lack adequate health insurance.

While genetics, healthcare, and lifestyle choices affect health, so can land use patterns, transportation infrastructure, access to open space, economic success, and a variety of other factors, which in turn are guided and supported by the City and other partners, such as the Greater Vallejo Recreation District (GVRD), the Solano Public Health, and

Fortunately, Vallejo can build on an extensive network of healthy eating advocates involved with farmers markets, community gardens, food banks, nutrition education, and other resources.

POLICY CP-1.1 Retail Food Sources. Strive to ensure that all households in Vallejo have easy access to retail sources of affordable healthy food, including organic options, such as full-service grocery stores, ethnic food markets, produce markets, and convenience stores.

Action CP-1.1A Work with Solano Public Health, universities, and other partners to identify areas of Vallejo that lack affordable healthy food retail options, using retail food indices and the United States Department of Agriculture (USDA) "food desert" designation, and including maps that illustrate factors such as concentration of fast food restaurants and convenience food outlets, areas that lack affordable healthy food, areas with limited transportation options, and areas of poverty.

Action CP-1.1B Update City regulations and explore incentives to attract a full service grocery store to South Vallejo and to any other identified "food deserts."

Action CP-1.1C In collaboration with Solano Public Health and other partners, consider a program to encourage markets to stock fresh produce and other healthy foods.

Action CP-1.1D Consider updating City regulations to limit the number of fast

Action CP-1.1F Work with Solano Public Health and other partners to continue and expand the ability to use the Electronic Benefit Transfer (EBT) program at farmers' markets and other sources of healthy food.

POLICY CP-1.2 Locally Grown Food. Collaborate with community partners to support and expand Vallejo's community gardens, Community Supported Agriculture (CSA) programs, and urban agriculture.

Action CP-1.2A Work with community garden programs, Vallejo City Unified School District (VCUSD), Solano Community College, residents, and other local advocates, to establish a network of community gardens as sources of fresh produce, education, and social cohesion.

Action CP-1.2B Work with GVRD, residents, colleges and universities, Solano Public Health, and other community partners to identify community garden opportunities in parks or appropriate properties and on City-owned property.

California State Parks Community FactFinder Report

Project ID: 103185
Coordinates: 38.1116, -122.2282
Date: 4/8/2021

This is your project report for the site you have defined. Please refer to your Project ID above in any future communications about the project.

PROJECT AREA STATISTICS

County	Solano
City	Vallejo
Total Population	5,087
Youth Population	1,048
Senior Population	853
Households Without Access to a Car	144
Number of People in Poverty	613
Median Household Income	\$61,907
Per Capita Income	\$29,746
Park Acres	1.77
Park Acres per 1,000 Residents	0.35

PROJECT AREA MAP

REPORT BACKGROUND

The project statistics have been calculated based on half mile radius around the point location selected. Only park acres within the project area's half mile radius are reported.

Population and people in poverty are calculated by determining the percent of any census block-groups that intersect with the project area. The project area is then assigned the sum of all the census block-group portions. An equal distribution in census block-groups is assumed. Rural areas are calculated at a census block level to improve results.

Median household and per capita income are calculated as a weighted average of the census block- group values that fall within the project area.

More information on the calculations is available on the methods page.

Demographics—American Community Survey (ACS) 5-year estimates 2014-2018; Decennial 2010 Census; the margin of error (MOE) was not analyzed.

Parks—California Protected Areas Database 2020a CFF adjusted (6/2020) - more information at <http://www.CALands.org>. Parks and park acres area based on best available source information but may not always contain exact boundaries or all parks in specific locations. Parks are defined further in the 2015 SCORP (pg. 4).

Users can send updated information on parks to SCORP@parks.ca.gov
